

ELECTRIC MOIST HEAT THERAPY PAD

THIS REVOLUTIONARY NEW MOIST HEAT THERAPY PAD WILL MAKE ORDINARY HEAT PADS OBSOLETE.

◆ **Uses No Internal Wires** ◆

ThermaTech™ is the first heat therapy pad made without internal heating wires. The ThermaTech patented heating element uses state-of-the-art conductive resistive polymer composites, deposited directly onto mylar film and permanently sealed within a soft, flexible pad. The result? Safer, more consistent delivery of moist heat.

- Distributes heat evenly and uniformly
- Eliminates dangerous temperature surges and hot spots
- Oversized, ergonomically designed heat control switch
- Every unit is 100% run tested
- 5 Year Warranty

Merchandising Services:

- Consumer rebate coupons
- Consumer educational pamphlets
- Recyclable clamshell packaging increases impulse sales
- Consumer toll-free number and unconditional 30-Day Money Back Guarantee
- Professional detailing

ThermaTech is the heat therapy pad medical professionals will be recommending by name.

To establish or expand your heat and cold therapy, sports medicine and first aid departments, ask us about our full line of unique products, specially designed to meet all your customers' needs for effective, natural pain relief.
